

FREE TRADE NOT LIMITED TO WEST

Sir Alfred Mond, M.P. Says Settlement in Eastern Canada

Canadian Associated Press. London, Nov. 2.—Sir Alfred Mond, M.P., in the course of a lengthy interview in the Morning Leader, says the people of England should not take their views of Canadian questions from Toronto. "That city is the headquarters of the Conservative Protectionist party. Most of the opinion coming from there is colored by self interest. Sir Alfred found that in Eastern Canada comparatively little was known of the strength of the movement in the west toward free trade. Yet he was surprised at the number of free traders in Eastern Canada. He says he has never before surprised at the fact that the leading and most influential newspapers in that part of the Dominion were free trade papers.

The Morning Post, commenting on the opinion expressed in the interview, says: "It is now realized that the vociferous assertion here of the sweeping free trade agitation in Canada is a recent and somewhat exaggerated phenomenon. A typical article of this glorious cause is Sir Alfred Mond's. No one who has been in the Dominion for some time could be so ignorant of the fact that the leading and most influential newspapers in that part of the Dominion were free trade papers.

BOULLON SEEKS NO SPECIAL PRIVILEGES

When seen by the Bulletin upon his visit to the city, Mr. Patterson stated that he had no special privileges. "We are in no sense, especially interested in Edmonton," he stated, "because of the unusual promise of industrial development which it gives."

In fact, he stated, he was not the first repeat of any important event in the city, and he was over-estimated. The day deposit was not probably made in the city, but he was not the first to do so.

This is Mr. Patterson's first visit to Edmonton, and he intended to spend several days in the city, but he was not the first to do so.

CHILDREN INJURED IN PANIC

Three Baby Birt and One May Die because of Panic in the Street.

Montreal, Nov. 3.—Three children were injured, one perhaps fatally, when hundreds of children rushed panic-stricken out of the Académie des Sciences building this morning when the fire went up as the result of a small bomb and great clouds of smoke poured out of the rear back yard of the institution. Eight-year-old Adrienne Lavigne may die from a fall down stairs.

Another child, who was not hurt, was thrown from the top of the stairs, almost certainly to her death. The other children were not hurt, but the panic was so great that the children were not able to get out of the building.
